670.5 v.47

Lancashire Branch, Presidential Address, 255.
London Branch, Annual Dinner, 386.
London Branch, Presidential Address, 201, 215.
Newcastle Branch, Presidential Address, 217.
Scottish Branch, Annual Dinner, 382.
Scottish Branch, Presidential Address, 220.
Sheffield Branch, Presidential Address, 224.
West Yorkshire Branch, Presidential Address, 289.
Institute of Metals and Iron and Steel Institute, 106.
Institute of Metals, Autumn Meeting of, 41.
Iron and Steel Institute, Joint Meeting with Institute of Metals, 169.
Iron, Malleable, Résumé of Sub-Committee of I.B.F., 31.
Iron Oxides, Reduction by Carbon and Potassium Cyanide of, 396.
Iron, Oxygen in, 329.
Irons, Manufacturing Heat-Resisting, 319.

J

Jobbing Steel Foundry, Some Lifting Considerations in, 61.

L

Leaders:—
A Castings Development Committee, 29.
A Conservative Industry, 119.
A Further Step, 197.
American Specification, II, 361.
An Interesting Development, 133.
A Pat on the Back, 73.
A Rider, 213.
A Welcome Innovation, 73.
B.C.I.R.A. Extensions, 1.
British Cast Iron Research Association, 261.
Casting Displaced by Welding, 377.
Coal-Dust Bonded Sand, 181.
Coke Again, 325.
Crucible, Furnaces, 213.
Cylinder Liner Wear, I, 377.
Cylinder Liner Wear, II, 393.
Debates Not Wanted, 345.
Desulphurisation, Et Cetera, 325.
Diesel Progress, 309.
Ethical Buying, 245.
Foundry Nomenclature, 1.
High-Frequency Furnaces, 262.
Implied Warranty and the Sale of Castings, 45.
Industrial Russia Surveyed, 149.
International Foundry Congress, 59.
Is "Foundryman" an Americanism? 261.
Metallurgical Coke, 229.
More of the New Patent Law, 293.
Moving, 105.
Next Week's International Congress, 133.
Presidential Addresses, 245.
Proving the Obvious, 89.
Quantity and Quality, 59.
Railway Development, 89.
Reflections, 15.
Reflections on the Congress, 181.
Selling Castings, I, 119.
Selling Castings, II, 149.
Soda-Ash Problem Re-examined, 361.
Steel Founding at the Cross-Roads, 15.
Stocks, Zero, 277.
Tariffs, The New Industries and the Foundry, 309.
Technocracy, 393.
Testing Again, 105.
Text-Book Deficiencies, 45.
The Extended Duties, 277.
The New American Specification, I, 345.
The New Patent Act, 229.
The Paris Convention, 165.
The Winter Programme, 165.
Thinking Alike, 29.
Trade Barometers, 197.
Lifting Considerations in a Jobbing Steel Foundry, 88.
Low-Carbon Content in Cast Iron, 60.

M

Magnesite, 389.
Magnesite, Austrian, 328.
Magnet Steels, New, 235.
Malleable Iron Castings, American Tentative Specifications, 200.
Malleable-Iron Developments, Discussion on Report of Malleable Sub-Committee, 311.
Malleable-Iron Foundry, Some Methods of Production in Modern, 327.
Malleable Iron: Sub-Committee of I.B.F.: Résumé, 31.
Malleable Iron, Sub-Committee of the I.B.F., Résumé of, 47.
Manganese, Melting Losses in the Cupola Furnace, 305.
Manganese Ore in South Africa, 383.
Manual Labour, Rationalisation by Industrial Physiology of, 97.
Mechanical Foundry of Messrs. Ferranti, Limited, New, 65.
Mechanising Hull Foundry, Recent Developments in, 301.
Mechanism of Deformation in Grey Iron, 125.
Meeting Competition by New Developments, 23.
Melting Cast-Iron Borings, An Open Hearth for, 114.
Metallurgical Furnaces, Combustion of Pulverised Coal in, 85.
Metals in the Foundry, Deoxidation of, 115.
Microscopic Tests Acceptation, 75.
Moisture Tester, Speedy, 362.
Moulding and Casting, Introduction to Study of (cont. from 404, Vol. 46), 7.
Moulding and Casting, Theory of: Discussion, 53.
Moulding and Runner Boxes, 109.
Moulding Practice, A Revolutionary Method in, 138.
Mould Materials for Non-Ferrous Strip Ingot Casting, 154, 173.

N

New Steelmaking Process, 219.
Nickel Cast Iron in Diesel Engines, 206.
Nickel in Steel Castings, 99.
Non-Ferrous Castings, Sound, 330.

O

Oil-Engine Castings, 64.
Oil-Engine Foundry Practice, Further Notes on, 402.
Oil Fuel in the Foundry, 310.
Open-Hearth Furnace for Melting Cast-Iron Borings, 114.
Open-Hearth Furnaces, Siemensite Refractory for, 394.
Openshaw Foundry of Joseph Stubbs, Limited, 91
Ottawa Agreements, 248.
Oxygen in Iron, 329.

P

Paris International Foundry Congress, 86.
Parting Powders, 101.
Pattern Plates, Cheap Method for Making, 36.
Patterns, Plaster in General Foundry Practice, 351.
Pig-iron in U.S.A., Foreign, 395.
Piston Ring, Single-Cast in Green-Sand Moulds, 395.
Plaster Patterns in General Foundry Practice, 351; Discussion, 393.
Poumay Cupola, 2.
Precipitation Hardening of Fe-Co-W and Fe-Co-Mo Alloys, 160.
Production in Modern Malleable Iron Foundry, Methods of, 327.

R

Rationalisation of Manual Labour by Industrial Physiology, 97.
Reaction Chamber, Large Hollow Forged, 282.
Refractory Materials in the Foundry, Some Uses of, 369.
Research in Foundry Technique, A Phase of Recent, 331.
Rotary Core Machine, A Novel, 2.
Russian Foundry, Costing in a, 358.

S

Sand, Black, 188.
Sand, Erith, 312.
Sand in Non-Repetition Foundries, Mechanical Preparation and Handling of, 239.
Scale Removal by Acid Pickling, 204, 221.
Science in Foundry Sundries, 101.
Scrap Metal Imports, Watching, 305.
Scrap Metal Position, 187.
Scrap, Outlook for, 346.
"Sesci" Melting Furnace, 135.
Siemensite Refractory for Basic Open-Hearth Furnaces, 394.
Silica in Iron Ores, 260.
Single-Cast Piston Ring in Green-Sand Moulds, 395.
Snagging Machines, Developments in High-Speed 62.
Soda Ash, 378.
Soda Ash, Practical Application of, Discussion, 380.
Soviet Enterprise, An Engineer's Review of the, 159.
Special Irons, 60.
Specimen, Effect on Strength and Elastic Properties of Cast Iron of Size of, 379.
Spelter Prospects, 300.
Steel Castings, Fusion Welding as Related to, 157.
Steel Castings Made Without Sand, 25.
Steel Castings, Nickel in, 99.
Steel Castings, Some Factors Affecting the Cleanliness of, 107.
Steel Foundry, Some Lifting Considerations in a Jobbing, 88.
Steel Furnace Charging Boxes, 285.
Steels, Heat-Resisting, 341.
Steels, New Magnet, 235.
Stein Suspended Furnace Roof, 160.

T

Tar Oils as Possible Diesel Fuels, 389.
Technical Training College, Proposed British Foundry, 199.
Tin, The Rise in, 115.
Training for Business Careers, 25.

V

Volume Changes in Cast Iron During Casting, Shop Method for, 140.

W

Water-Power Castings, 313.
Welding, Fusion as Related to Steel Castings, 157.
White-Heart Malleable Cast Iron, Black-Heart Fractures in, 121, 143.
Why Educate the Foundryman? 279.
Witton High-Frequency Electric Melting Furnace, 354.

PUBLIC LIBRARY
DETROIT MICH.
